

Spill Notification & Reporting

"Building sustainable capabilities across all phases of Emergency Management in Kansas through selfless service"

Spill Notification & Reporting

- Spiller is required to make immediate, verbal notification of spills
- Notification requirements for each entity:
 - **CERCLA RQ:** KDEM, LEPC, NRC
 - **EPCRA Sect. 304 RQ:** KDEM, LEPC
 - **Cleanup Required:** KDHE
 - **Oil Production:** KCC

"Building sustainable capabilities across all phases of Emergency Management in Kansas through selfless service"

Spill Notification & Reporting

(785) 291-3333

Main Menu:

"You have reached the State of Kansas Spill & All Hazard notification system. Please listen carefully to the following menu options to be quickly routed to the appropriate state agency."

1. "If you are calling to report a spill, Press 1." Submenu A
2. "If you are calling to report a natural hazard or radiologic incident, Press 2." KDEM
3. "If you are calling to report a train derailment, Press 3." KDEM
 - Repeat greeting and options until a selection is made.

"Building sustainable capabilities across all phases of Emergency Management in Kansas through selfless service"

Spill Notification & Reporting

Submenu A:

1. "If you are calling to report a spill that impacts a body of water, soil, or requires cleanup, Press 1." KDHE
2. "If you are calling to report a chemical release to the air, Press 2." KDEM
3. "If you are calling to report a spill on an oil production property, Press 3." Submenu B
4. "To return to the main menu, Press 4."
 - a. Repeat options until a selection is made.

Submenu B:

1. If you know the KCC district that covers the county where the spill occurred, please call that number. Otherwise, Press 1 to be connected to the KCC Conservation Division office, or visit the 'Contact Us' portion of www.kcc.ks.gov." KCC Conservation Division

Kansas Corporation Commission Notification

It is important to note that oil and gas producers are to maintain their current call processes by notifying their Kansas Corporation Commission (KCC) district representative directly. KCC lead spills will not be reported using the new telephone system; however, there is a KCC option in the instance someone wishes to reach the KCC.

"Building sustainable capabilities across all phases of Emergency Management in Kansas through selfless service"

Spill Notification & Reporting

- Once the caller makes their selection on the call menu they will be connected with a state Staff Duty Officer (SDO)
- Information about the incident will be collected by the SDO and then logged into the WebEOC Spills Database
- Confirmation number has been eliminated. Each call will be assigned a seven digit Incident Report number.
- Incident Report number may not be available at the time of the call
 - Incident Report number is auto-generated and requires the SDO to login and save
 - The Staff Duty Officer will provide the number in a follow up phone call

"Building sustainable capabilities across all phases of Emergency Management in Kansas through selfless service"

Spill Notification & Reporting

Common Scenarios

- Chemical spill impacting soil and air – KDHE or KDEM
- Emergency requiring evacuation or shelter in place – KDEM
- Food related incident – KS Dept. of Agriculture (800) 915-6163
- Train derailment or other incident – KDEM
- Train derailment that also has a material spill – KDEM
- Material spilled by railroad not due to derailment – KDHE
- Wildland fire, tornado, flood, wind damage, etc. – KDEM
- Radiological incident – KDEM
- If caller has no idea who they need to talk to – press a number and we will do our best to help them out

"Building sustainable capabilities across all phases of Emergency Management in Kansas through selfless service"

Spill Notification & Reporting

WebEOC Spills Database: Form A

- Initial Notification information is logged into the WebEOC Database by SDO
- Once the Initial Notification Form is completed by SDO an Incident Report/Form A is generated
- Incident Number is generated upon saving an Initial Notification Form
- Form A will be automatically populated by the information provided to the SDO during the Initial Notification

SARA Title III Electronic Spill Notification:

Prior to submission of a spill report, **VERBAL NOTIFICATION** must be made to the Local Emergency Planning Commission (LEPC), Commission on Emergency Planning & Response (CEPR) and the National Response Center (NRC) if required.

Submission is required in compliance with Kansas Statutes Annotated Chapter 65 Article 57 Emergency Planning and Community Right-To-Know, which includes K.S.A. 65-5722 and K.S.A. 65-5709.

SIGN IN

The Kansas Division of Emergency Management—Technological Hazards Branch is now hosted by WebEOC.

A new username and password will need to be created prior to entering a spill.

To acquire your new username and password please contact:

Marlo Tangney at 785-274-1409 or email to marlo.g.tangney.nfg@mail.mil

[Printable Form A](#)

To find out if the chemical you are reporting is an EPCRA or CERCLA Chemical you may go [HERE](#) If you do not find the chemical you are searching for and know it is hazardous, please follow through with the spill notification process. For complete details on spill notification requirements for the State of Kansas, please go to [State of Kansas Hazardous Materials Emergency Notification Requirements Guidance](#). For complete information on the Kansas Division of Emergency Management — Technological Hazards Branch go [HERE](#)

WebEOC

 Select Language ▼

WebEOC stands for "Web-based Emergency Operations Center". It is the original web-enabled crisis information management system developed by ESI and provides secure real-time information sharing to help managers make sound decisions quickly. Its use for events is worldwide and exhaustive. As an incident-based information management system, WebEOC is capable of managing multiple ongoing incidents simultaneously yet separately, or agencies and users can roll-up multiple incidents for viewing in a common master view. In addition to real-time access to information, WebEOC provides an extensive information retrieval and reporting capability.

KDEM's WebEOC will house the Spill and All Hazards database, replacing the Form A reporting process, please contact the Spills Coordinator at (785) 274-1423 if additional assistance is required.

New users can request WebEOC access with the form below or by contacting their local County Emergency Management Director.
